ANNOUNCING CLVH'S 2011-2012 FALL & WINTER SEMINARS

* COMPLETED * Wednesday, September 28, 2011 - 7-9 p.m.

Will This Kill My Horse? Common Toxic Plants Found in Pastures & Hay

Presenter: Krishona Martinson, Ph.D. Cost: FREE, but please RSVP

Learn what to look for in your horse's pasture and hay to avoid toxic-plant-related health issues. Find out what plants cause harmless side effects and which ones can be deadly. You are invited to bring any plant "suspects" with you for identification.

CLVH Performance Seminar Series: October, November & December

* COMPLETED* Saturday, October 22, 2011 - 1-3 p.m.

Evaluating Your Horse's Conformation & Related Performance Issues

Presenter: Kathy Ott, DVM Cost: \$10 (pre-registration & payment required; space is limited)

At this case-based seminar, Dr. Ott will evaluate multiple horses' conformation and associated lameness issues or risk factors for lameness issues. If you would like to bring YOUR horse for this seminar, please submit at least two photos of your horse (a profile showing all four legs and a straight-on front view), along with its breed, age, use and any lameness history. Photos and information can be e-mailed to vets@clvets.com. Six horses will be chosen—the owners will be responsible for the horses' transportation to and from the clinic. RSVP soon as this seminar is limited to 30 participants! Please remember to dress appropriately as we will be in the indoor arena for most of the seminar.

* COMPLETED * Wednesday, November 16, 2011 - 7-9 p.m.

Foot-Related Lameness Problems From a Farrier's Perspective

Presenter: Terry Dokken, CJF Cost: FREE, but please RSVP

Terry is a Certified Journeyman Farrier who deals with a lot of foot lameness cases. He will go over foot anatomy and the different types of problems he deals with from a therapeutic trimming and shoeing perspective.

* COMPLETED * Wednesday, December 14, 2011 - 7-9 p.m.

State-of-the-Art Performance, Lameness & Rehabilitation Treatments

Presenter: Jennifer Selvig, DVM Cost: FREE, but please RSVP

This often-requested seminar will cover all of the latest diagnostic and treatment options for performance horse lamenesses, as well as rehabilitation techniques. Learn about different types of joint and tendon/ligament therapies such as IRAP, platelet-rich plasma, stem cells, shockwave, advanced hydrotherapy, and swimming/underwater treadmill rehab.

* DATE CHANGE * Tuesday, January 24, 2012 - 7-9 p.m.

An Equine Vet's Horse Owner How-To Guide

Presenters: Heidi Terwey, DVM & CLVH Technical Staff Cost: \$10 (pre-registration & payment required)

Back by popular demand, our "How-To" seminar will be a hands-on experience where you can learn common and important treatment procedures, such as taking your horse's vital signs, medication administration (including intramuscular injections) and bandaging techniques. Great for Pony Clubbers, 4Hers & barn managers. RSVP soon as we have limited space.

* DATE CHANGE * Wednesday, February 8, 2012 - 7-9 p.m.

Breeding & Foaling 101: Mare and Foal Care

Presenters: Tuula Sinks, CVT & Jess Donnelly, CVT Cost: FREE, but please RSVP

Whether you are thinking about getting into breeding or are an experienced horse breeder, this seminar will be an excellent introductory and refresher course. Learn about different breeding methods and troubleshooting, what to expect when your mare foals and what the "Top 10 Baby Issues" to watch for are. Our experienced breeding and neonatal care technicians will offer many helpful tips and insights to get you happily from breeding to baby.
